Hydraulic Hose Crimping Machine

SP6001

???? ???? ???? ?????

Description: SP6001 Model pipe locking machine is applicable for fastening and pressing processing of the high-pressure rubber hose, fiber pipe, and plastic pipe assemblies in the industry, agriculture, and hydraulic transmission of engineering machines, and the machine has the following characteristics gave small volume, light weight, many functions, and rapid opening of die, being easy to operate and convenient for maintenance and repair.

SPECIFICATIONS

Model	SP6001
Inside Diameter of fastening the rubber hose	Φ 6- Φ 51mm
Precision of scale	0.02mm
Power (Motor of Oil Pump)	4KW
Maximum Fastening and pressing Force	540T
Rated Pressure of Pump	30 MPa
Oil Pump Output	14 l/min
Motor	220V 60Hz
Weight	350KG
Dimension	800mm × 620mm × 1300mm
