Hydraulic Hose Crimping Machine

WITHOUT CABINET

???? ???? ???? ?????

Description Using the latest design, with compact structure, advanced design, lightweight, high efficiency, easy to operate, reliable performance, and other characteristics; Crimp die, fitting, long service life; Strong magnetic installation, convenient and quick replacement of the whole set of molds, unique technology patent.

Features:

- 1. Using a forged steel machine head, this kind of steel is more durable than general steel.
- 2. Digital operation panel, high crimp accuracy.
- 3. Humanized design, simple controls, and operation.
- 4. Equipped with a foot pedal, very convenient for freehand operation.
- 5. Magnetic dies (Patented), very convenient to remove and install dies

SPECIFICATIONS

Hydraulic Hose Crimping Machine WITHOUT CABINET	
Crimping Range	6mm to 51mm (1/4" to 2")
Quantity of dies	10 Sets
Accuracy	0.01mm
Work efficiency	200pcs/h
System Pressure	31.5Mpa
Dies sets	10 sets
The max open tolerance	±30mm
Crimping force	500T
Output volume of pump	2.5/5L

Voltage	380v - 3 phase 60hz
Motor power	3kw 60hz
Machine Dimension	800×530×870mm
Weight (Gross/Net)	260/240kg
