

# Adjustable Reamers

**Description:** Each reamer expands to the smallest size of the next larger size. Reamers are used for light cutting, repair work, removing stock, or simply for enlarging holes. Reamers can be hand operated by use of wrenches. The size can be adjusted by moving the blades in tapered slots by means of loosening one nut and tightening the other. Blades are hardened and ground

**Features:**

1. The reamer range is from 12.75 to 44mm
2. The reamer includes 9Pcs high-speed adjustable hand reamers
3. The adjustable reamer is made of HSS (high-speed steel) with good hardness and toughness
4. The adjustable reamer is a straight flute with a straight handle
5. The reamer is suitable for drilling machines and other equipment
