# Brake Lathe Machine C9370C

????? ?????? ???????

**Description:** The C9370 brake lathe is capable of faster, more accurate, and more accessible resurfacing the lathe, infinitely adjustable feed rates allow you to modify the cut drum easily, and Fast and slow settings allow cutting the rotors. There are three kinds of spindle speeds to choose 70/88/118RPM. With cross-feed extension plate will increase the maximum rotor diameter to 18"/457mm. **Features:**

1. 3 spindle speed can be adjusted by changing the belt position.
2. DC drive enables variable feeding speed.
3. 2 motors separately for turning disc/drum.

## SPECIFICATIONS

|                            |                  |
|----------------------------|------------------|
| Model                      | C9370C           |
| Brake disc diameter        | 178-457mm        |
| Brake disc thickness       | 48mm             |
| Brake drum diameter        | 152-711mm        |
| Brake drum depth           | 220mm            |
| Spindle speed              | 70,88,118rpm     |
| Cross feeding capacity     | 0-0.4mm/r        |
| Motor power                | 0.75kw           |
| Overall dimensions (L*W*H) | 1280x1100x1445mm |
| Weight                     | 290kgs           |
