# Hydraulic Hose Crimping Machine

## WITHOUT CABINET

???? ???? ???? ?????

**Description** Using the latest design, with compact structure, advanced design, lightweight, high efficiency, easy to operate, reliable performance, and other characteristics; Crimp die, fitting, long service life; Strong magnetic installation, convenient and quick replacement of the whole set of molds, unique technology patent.

**Features:**

- 1. Using a forged steel machine head, this kind of steel is more durable than general steel.
- 2. Digital operation panel, high crimp accuracy.
- 3. Humanized design, simple controls, and operation.
- 4. Equipped with a foot pedal, very convenient for freehand operation.
- 5. Magnetic dies (Patented), very convenient to remove and install dies

### SPECIFICATIONS

Hydraulic Hose Crimping Machine WITHOUT CABINET	
Crimping Range	6mm to 51mm (1/4" to 2")
Quantity of dies	10 Sets
Accuracy	0.01mm
Work efficiency	200pcs/h
System Pressure	31.5Mpa
Dies sets	10 sets
The max open tolerance	±30mm
Crimping force	500T
Output volume of pump	2.5/5L

Voltage	380v - 3 phase 60hz
Motor power	3kw 60hz
Machine Dimension	800×530×870mm
Weight (Gross/Net)	260/240kg
