Radial Drill Machine

SPRD3210

?????? ?????

**Description** **SPRD3210** radial drilling machine is an ideal universal machine with wide applications for processing medium and small parts in workshops. It's designed for drilling, reaming, spot-facing, and tapping. With special tools even boring operation is available. This machine is one of the up-grade products featuring high performance and reliability, easy operation and Maintenance, simple construction, long servicing life, etc.

SPECIFICATIONS

Model	SPRD3210
Max. Drilling capacity steel/iron (mm)	25/32
Centerline of spindle axis to column (mm)	360-1000
Spindle taper	MT4
Spindle travel (mm)	200
Spindle speeds 12	75-1220
Max. feed force permissible for the spindle	5300
Spindle feeds 6	0.05,0.08,0.10,0.16,0.25,0.125
Distance from spindle nose to work table (mm)	260-1000
Vertical traverse speed of the arm (m/min)	1.3
Swivel of arm	360
Elevating motor power (kw)	0.75
Power of Main motor (KW)	2.2
N.W (kg)	1000
