Steel Bar Bending Machine

RB42

????? ?????? ?????

Description This machine can bend rebar in various shapes at a diameter from 3mm to 42mm on the building construction also it is advanced in design, operation easy, safe reliable, performance stable efficient high and procedure simple, and so on.

SPECIFICATIONS

Model	RB42
BENDING DIAMETER	<40mm HPB235/<36mm HRB335
SPEED OF PRINCIPAL AXIS	8-12r/min
POWER OF MOTOR	3KW/3KW brake motor
VOLTAGE	380V/220V/415V
DIMENSION	840×840×800mm
WEIGHT	360KG
